

# COSMOS

Invites you to attend the:

## 2012 OPEN HOUSE

### Program Overview

Designed specifically for talented and motivated high school students, the California State Summer School for Mathematics and Science (COSMOS) is a 4-week summer residential program for high school students with demonstrated interest and achievement in math and science. Located on four University of California campuses (Davis, Irvine, Santa Cruz, and San Diego), students work side-by-side with outstanding university researchers and faculty to explore advanced topics in science, technology, engineering and mathematics (STEM) using curriculum that is hands on and lab intensive. COSMOS alumni have opportunities for internships, college scholarships, and special events.
